

# TURFMASTER

# TURFMASTER

Turfmaster is a peer to peer skill game which offers players the exciting opportunity to own, train and race virtual horses against a global community of competing players for real prize money. A variety of daily races are on offer, that cater for the novice through to the horse racing pro, and are played out live on the state of the art 3D race viewer.

The game incorporates the following elements:

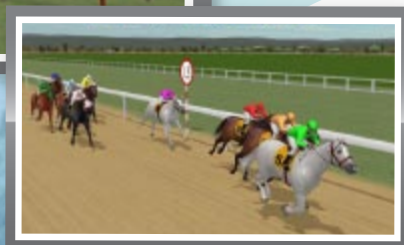

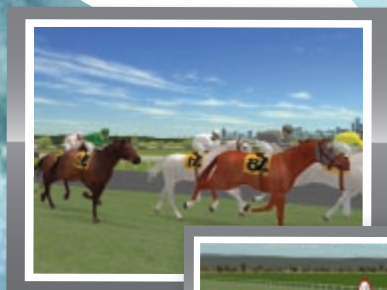

- Horse ownership
- Stable management
- Tack shop, vet and farrier
- Live races on 3D race viewer
- Race streaming via traxide
- Auctions
- Community

The game is available to select partners on a white label basis providing an interface into a client's transactional system as well as offering seamless login to members and full access to all game play elements.

Benefits of a Turfmaster white label include:

- Fully managed turn-key service
- Access to fast growing skill-game industry
- Immediate liquidity through existing racing activity
- Low investment in a high value product
- Attractive branded website
- No ongoing overhead commitment

Partners also have the opportunity to add virtual racing betting markets, driven by Turfmaster races, alongside their existing markets. These are available for web and TV broadcast.
